BJMP Visitor Admission and Queuing System

User Manual

User Manual

Document Type: Operations and User Guide

This manual provides practical instructions for using the BJMP Visitor Admission and Queuing System. It is intended for staff, administrators, and supervisory personnel who are responsible for visitor processing, queue operations, reporting, and system governance.

1. Accessing the System

1.1 Login Procedure

1. Open the BJMP VAQS login page.
2. Enter the assigned username or email address.
3. Enter the correct password.
4. Select **Sign In** to enter the system.

1.2 Forgot Password Procedure

1. Open the **Forgot Password** page.
2. Enter the username assigned to the account.
3. Submit the password reset request.
4. Wait for administrator approval and the issuance of a replacement password.

2. Main Modules and Their Functions

Module	Function	Typical User
Dashboard	Displays operational overview, summary figures, and shortcuts to key modules.	Staff, Admin, Super Admin
Queue	Handles QR validation, queue admission, acceptance, rejection, and time-out operations.	Staff, Admin
PDL Management	Maintains PDL records, case references, dorm assignment, and authorized visitors.	Admin

Module	Function	Typical User
Visitor Registration	Registers visitors and uploads photographs and documentary requirements.	Staff, Admin
Visitor Management	Reviews verified visitors, updates files, controls bans, and routes records to queue or ID issuance.	Staff, Admin
ID Issuance	Issues and reissues QR-enabled visitor identification cards.	Staff, Admin
Reports	Generates and exports filtered operational reports.	Staff, Admin
Masterlist	Maintains cases, courts, and dorm references.	Admin, Super Admin
Manage Users	Assigns roles, permissions, and processes password reset approvals.	Super Admin

3. Daily Operating Procedure

3.1 Preparing Records

1. Open the **Masterlist** module from the sidebar.
2. Click the needed tab: **Case**, **Court**, or **Dorm**.
3. Click **Add** if a new reference is needed.
4. Type the required description or reference details.
5. Click **Save**.
6. Use the table search box to confirm that the saved reference is listed.

3.2 Adding a PDL Record

1. Open **PDL Management** from the sidebar.
2. Click **Add New**.
3. Enter the PDL personal information such as name, age, sex, and suffix if available.
4. Select the assigned **Dorm**.
5. Enter the case number, case type, and court information.
6. Add the five (5) authorized visitors provided by the PDL prior to or during commitment.
7. Encode each authorized visitor's available information, such as full name, relationship, address, and contact details.
8. Review the encoded information.
9. Click **Save**.

3.3 Importing a PDL List

1. Open **PDL Management**.
2. Click **Import PDL**.
3. Click **CSV Template** to download the format.
4. Open the file and fill in the PDL details per row.
5. Save the completed file as CSV.
6. Return to the system and click **Choose File**.
7. Select the completed CSV file.
8. Click **Import PDL**.
9. Wait for the import result message.

3.4 Adding Visitors to a Specific PDL

1. Open **PDL Management**.
2. Search for the PDL name or PDL ID.
3. Click the visitor button on the PDL row.
4. Click **Add Visitor** for manual entry, or click **Import Visitors** for bulk upload.
5. If adding manually, enter the visitor name, age, sex, contact number, address, and relationship or other required information.
6. If importing, download the visitor template, fill it in, choose the completed file, then click **Import Visitors**.
7. Click **Save** or wait for the import success message.
8. Check the visitor list to confirm the visitor is attached to the selected PDL.

3.5 Registering a Visitor

1. Open **Visitor Registration**.
2. Click **Start Registration** if the page shows a start button.
3. Click the **PDL** search/select field.
4. Search and select the PDL to be visited.
5. Click **Next**.
6. Enter visitor details such as first name, middle name, last name, age, gender, contact number, and address.
7. Click **Next**.
8. Upload the visitor photo and required documents.
9. Enter emergency contact information.
10. Click **Next** to open the review page.
11. Review all encoded details. Click **Back** if a correction is needed.
12. Click **Submit** or **Save Registration**.
13. Wait for the success message before closing or refreshing the page.

3.6 Managing a Verified Visitor

1. Open **Visitor Management**.
2. Use the search box to find the visitor.
3. Click **View** or click the visitor row.
4. Review linked PDL data, issued ID status, uploaded files, and current visitor status.
5. Click **Edit** if personal details need correction.
6. Click the photo or document update control if a file must be replaced.
7. Click **Save** after making changes.
8. Use **Ban** or **Lift Ban** only when authorized.

3.7 Issuing an ID

1. Open **ID Issuance**.
2. Select the relevant PDL from the PDL table.
3. Wait for the authorized visitors table to update.
4. Select the visitor who needs an ID.
5. Click **Issue ID**.
6. If the visitor already has an ID and needs replacement, click **Re-Issue**.
7. Review the generated ID preview.
8. Click **Print PVC** for card printing or **PDF** to export the ID.

3.8 Queue Admission

1. Open **Queue**.
2. Scan the visitor QR code.
3. Review the visitor details shown on screen.
4. Click **Put in Queue**.
5. If an ID card was presented, select the ID type and enter the ID number.
6. If no ID was presented but the visit is allowed, use the special case process if authorized.
7. Click **Confirm**.
8. In the request table, click **Accept** to allow the visitor inside or **Reject** to deny the request.
9. Click **Time Out** once the visit is completed.

> **Important:** The system allows only one visit per visitor per day and only ten visitors inside the facility at one time.

4. Reporting Procedure

1. Open the Reports module.
2. Select the report source: Admissions, Registrations, or ID Issuance.

3. Select the desired period type: Daily, Monthly, Yearly, or Custom Range.
4. Apply the filters.
5. Review the report table, including time in, time out, and hours stayed for admission reports.
6. Export to Excel or open the print/PDF layout as required.

5. Role Responsibilities

Role	Operational Responsibility
Staff	Performs frontline tasks such as visitor handling, queue intake, and basic ID issuance support.
Admin	Supervises PDL, visitor, queue, report, and issuance operations.
Super Admin	Controls user administration, permission assignment, and governance actions.

6. Permission Guidance

Action buttons and backend functions are permission-controlled. Users must be granted the required permission before they can open or use a function. Super admin is responsible for assigning these permissions in the Manage Users module.
