CERTIFICATION

Computer Systems Servicing (NC II) Passer

Honor Graduate Eligibility (HGE) - Civil Service Commission (CSC)

SUMMARY

Versatile and dedicated professional with experience in Website Developer, IT technical support, and client-facing roles across private and government sectors. Skilled in system deployment, troubleshooting, account management, and delivering quality service to users and clients. A creative thinker with strong communication skills, able to collaborate effectively in team environments. Known for being hardworking, adaptable, and eager to learn, with a strong commitment to continuous growth and development.

WORK EXPERIENCES

Lexsys Technologies Inc.
Technical Support - 2023

- Deployed and configured information systems for various Local Government Units (LGUs), ensuring operational readiness and proper system integration. Provided technical support and end-user assistance by diagnosing and resolving system issues to minimize downtime. Enhanced and maintained back-end code to improve overall system functionality, performance, and reliability. Additionally, developed user manuals and delivered troubleshooting guidance to help users operate systems efficiently and effectively.

Microgenesis Business System
IT Sales Associate/Admin- 2023 – 2024

- Handled client accounts, prepared and managed sales reports, and conducted account mapping. Performed telemarketing, prepared quotations, and presented product features to clients. Delivered services and addressed client concerns, ensuring full monitoring and satisfaction throughout the sales and support process.

LGU – City of Mandaluyong
WebDev- 2024 – Present

- Develops and implements website systems that support the city's digital transformation initiatives. Deploys solutions across both on-premises and cloud-based infrastructures, ensuring stability, security, and efficiency. Provides technical support and troubleshooting to enhance workflows and maintain smooth system operations.
