BJMP Visitor Admission and Queuing System

Click-by-Click System Flow Guide

How to Use the System Step by Step

A friendly guide that tells users what to click, select, fill in, and save

> **How to read this guide:** Follow each section in order. Each workflow shows the screen to open, the button to click, the details to encode, and the final action to save, print, approve, or export.

1. Start of Day Setup

Admin / Super Admin

Update Masterlist Records

```
Sidebar > Masterlist
```

1. Click the **Case**, **Court**, or **Dorm** tab.
2. Click **Add Case**, **Add Court**, or **Add Dorm**.
3. Enter the required details such as case number, court name, dorm number, or dorm description.
4. Click **Save**.
5. Use the search box to confirm that the new record appears in the table.

2. PDL Record Preparation

Admin

Add a PDL Record Manually

```
Sidebar > PDL Management > Add New
```

1. Click **Add New**.

2. Fill in PDL identity details such as first name, middle name, last name, age, sex, and suffix if available.
3. Select or enter the assigned **Dorm**.
4. Add case details such as **Case No.**, **Case Type**, and **Court**.
5. Upload the PDL photo if available.
6. Review all details, then click **Save**.

Admin

Import PDL List

```
Sidebar > PDL Management > Import PDL
```

1. Click **CSV Template**.
2. Open the downloaded file and fill in the PDL rows.
3. Save the completed file as CSV.
4. Return to the import page and click **Choose File**.
5. Select the completed CSV file.
6. Click **Import PDL**.
7. Wait for the success message, then return to **PDL Management** to review the imported records.

Admin

Import Visitors for One PDL

```
Sidebar > PDL Management > PDL row > Import Visitors button
```

1. Find the PDL record in the table.
2. Click the green **Import Visitors** button on that PDL row.
3. Click **CSV Template** and fill in the visitor details.
4. Save the completed CSV file.
5. Click **Choose File** and select the completed visitor file.
6. Click **Import Visitors**.
7. The system will attach those visitors to the selected PDL only.

3. Visitor Registration

Staff / Admin

Register a Visitor

```
Sidebar > Visitor Registration
```

1. Click **Start Registration** or open the first registration section if the form is already visible.
2. Click or search the **PDL** field.
3. Select the correct PDL from the list.
4. Click **Next** to continue to visitor information.
5. Enter visitor personal details such as first name, middle name, last name, age, sex, contact number, and address.
6. Click **Next** to continue to requirements and emergency contact.
7. Enter emergency contact details.
8. Upload the visitor photo.
9. Upload required documents such as birth certificate, marriage contract, cohabitation certificate, or other required files if applicable.
10. Click **Next** to review the encoded information.
11. Check the summary carefully. If something is wrong, click **Back** and correct it.
12. Click **Submit** or **Save Registration**.
13. Wait for the confirmation message before leaving the page.

4. Visitor Review and Management

Staff / Admin

Review or Update a Visitor

```
Sidebar > Visitor Management
```

1. Use the search box to find the visitor by name, PDL, contact number, or status.
2. Click the visitor row or the **View** button.
3. Review visitor details, linked PDL, uploaded files, and current status.
4. To update details, click **Edit**, change the needed fields, then click **Save**.
5. To change a photo or document, open the update area, choose the new file, then click **Upload** or **Save**.
6. To ban a visitor, click **Ban**, enter the violation and effective date, then click **Confirm**.
7. To lift a ban, click **Lift Ban**, enter the reason for lifting, then click **Confirm**.

5. ID Issuance

Staff / Admin

Issue Visitor ID

```
Sidebar > ID Issuance
```

1. Select the PDL from the PDL table.
2. Wait for the authorized visitor list to load below.
3. Find the visitor who needs an ID.
4. Click the visitor row if the system requires selection before showing the action buttons.
5. Click **Issue ID**.
6. If the visitor already has an ID, click **Re-Issue** only when replacement is needed.
7. Review the generated ID preview.
8. Click **Print PVC** for card printing, or click **PDF** to export a copy.

6. Queue Admission

Staff / Admin

Put Visitor in Queue

```
Sidebar > Queue
```

1. Scan the visitor QR code.
2. Check the visitor details shown on screen.
3. If the visitor is correct, click **Put in Queue**.
4. If the visitor presented an ID, select the ID type and enter the ID number.
5. If ID is not available and the visit is allowed, use the approved special case workflow.
6. Click **Confirm**.

Admin

Accept or Reject Queue Request

```
Sidebar > Queue > Visitor Request Table
```

1. Find the visitor in the request table.

2. Click the green **Accept** button to let the visitor inside.
3. If the visitor should not proceed, click the red **Reject** button.
4. The system will block acceptance if there are already 10 visitors inside.
5. After the visit, click **Time Out** to complete the admission.

Admin

Create Special Case Visitor

```
Sidebar > Queue > Special Case
```

1. Click **Special Case**.
2. Enter the visitor first name, middle name, last name, age, gender, and address.
3. Search and select the related PDL.
4. Enter ID type and ID number if available. If none, leave optional ID fields blank.
5. Enter the reason for visit.
6. Enter the approving officer or admin details and approval date.
7. Click **Save** or **Add to Queue**.
8. The special case record will be included in queue monitoring and reports.

7. Live Monitoring

Admin

Monitor Queue Activity

```
Sidebar > Queue Monitor
```

1. Open **Queue Monitor**.
2. Check the Waiting, Inside, Completed, and Average Wait counters.
3. Review **Visitors Currently Inside** to see all visitors admitted today.
4. Review **Waiting Queue** to know who is next.
5. Use **Recent Admissions** and **Live Activity Feed** for quick checking.

8. Reports

Staff / Admin

Generate a Report

```
Sidebar > Reports
```

1. Select the report type, such as Admissions, Registrations, ID Issuance, Banned Visitors, or Special Case Visits.
2. Select the date coverage, such as Daily, Monthly, Yearly, or Custom Range.
3. Use filters if needed: dorm, gender, PDL, ban status, violation, or date range.
4. Click **Show Report**.
5. Optional: open **Choose columns**, check the fields to include, drag fields to arrange them, and rename headers.
6. Click **Export Excel**, **PDF Report**, or **Print Report**.

9. User Permission Management

Super Admin

Approve Users and Assign Permissions

```
Sidebar > Manage Users
```

1. Open **Manage Users**.
2. Review registered users and pending password reset requests.
3. Select the user account.
4. Choose the correct role, such as Staff, Admin, or Super Admin.
5. In the permission matrix, check only the modules and actions the user is allowed to use.
6. Click **Save Permissions**.
7. Ask the user to log out and log in again if the permission change is not immediately visible.

10. Important Rules

Rule	What the user should do
One visit per day	If a visitor already completed a visit today, do not create another admission for that visitor.
10 visitors inside only	If the system says capacity is full, wait until another visitor is timed out.
Banned visitor	Do not proceed unless an authorized user lifts the ban with a valid reason.

Rule	What the user should do
Missing button	Ask the super admin to check the user's permission.
End of day	Make sure all inside visitors are timed out and export the needed report.
